To Whom It May Concern:

I am writing today to ask in the strongest way possible that you mandate all "contraceptives" and sterilization procedures be covered by private health insurance with no co-pay to patients. Please do not reverse course, I ask you to REMOVE conscience protections for any organizations that provide individual and group insurance and have moral or religious objections. I completely agree that the government should make free insurance coverage for Americans, especially for drugs and devices that will limit how many Right Wing Religious mental defects procreate.

I also ask you to consider your definition of religious employer and REMOVE any conscience protection for any organization and business that has moral or religious objection to providing such insurance to their employees.

The definition of "religious employer" in the regulation is thankfully so narrow but for some reason includes churches, but will still mean that a host of businesses and organizations that have conscience objections will be required to choose between either being bigots or not offering employees health insurance.

Please forcibly sterilize religious nuts, teabaggers and the members of the GOP and their offspring, before these defects further pollute the gene pool. I again urge you in the strongest way possible to stay the course and ADD contraceptives and sterilizations to the list of mandatory preventive services.

Sincerely,  
Austin Rozzell  
Nacogdoches, TX 75965
